

I am a subscriber to XM satellite radio! I benefit from listening to it's traffic and weather channels. To me satellite radio is very informative and it provides me personally and my family with many choices and good quality radio choices that are not available to me in my local listening area. I pay for this service and I feel it is NOT up to the National Association of Broadcasters to decide what I may and may not hear! XM Satellite Radio is MY CHOICE! I pay for it and I urge the FCC wholeheartedly to reject the NAB's petition 04-160 and to please support XM's abilities to provide programming that I demand, deserve, support, and pay for by my own CHOICE! I want it... I pay for it and I believe it is a 100% positive choice in my life! Thank you!
